Grill

Det perfekte valg til en hurtig grillning. Grill dit favoritmåltid eller færdiggør maden med en sprød skorpe.

Easy clean dør

Med mindre rengøring af ovne er din hobby, vil du elske at høre, at vores Easy clean ovndøre kan skilles ad i et enkelt greb. Alle glaslagene kan adskilles uden brug af værktøj, du skal blot trække op i top beslaget, så er glassene lige til at tage ud og rengøre.

3D Cooking

3d madlavninger, også kaldet multidimensional madlavning, er den nyeste generation af professionel madlavningsteknologi. Her aktiveres alle varmelegemer i toppen, bunden og omkring blæseren, hvorved der opnås den bedst mulige og mest ensartede varmefordeling. Denne funktion giver et perfekt resultat på store stykker kød som f.eks. en hel kalkun eller store stege.

- To ensure that critical air openings are maintained under the product, we recommend that this product is mounted on a solid base and that the feet do not sink into a carpet or soft floor covering. The kitchen floor must be able to support the weight of the unit plus the additional weight of pots, pans, and the food being cooked.
- This product is a Class 1 appliance according to the EN 30-1-1 standard, i.e. it can be placed with its back end and one side to the kitchen walls, kitchen fixtures or equipment of any size. Kitchen furniture or equipment on the other side can only be the same size or smaller.
- The product can be placed with cabinets on both sides, but there must be a minimum distance of 400 mm above the stove and a side clearance of 65 mm between the appliance and all walls, parts or tall cabinets.
- The appliance can also be freestanding. In this case, leave a minimum distance of 750 mm above the surface of the stove.
If a kitchen fan is to be installed above the appliance, the height of the hood should be at least 650 mm, unless otherwise stated.
