

Built-In 4 Doors Combi - Freezer Bottom

KQD 1254 XN

FEATURES

- Integrert Kombi 4 Doors
- VitaminZone
- 37 dBA
- Holiday Mode

Vitamin Protection grøntsagsskuffe

En skuffe med innovativ 3-farvet lysteknologi der efterligner solens vandring på himlen gennem et døgn. Dette bevarer vitaminerne i frugt og grønsager i længere tid.

Skuffe til kød og mejeriprodukter

Ved at holde temperaturen lige over frysepunktet bevares en optimal luftfugtighed. Kød, fisk og mælkeprodukter bevarer al deres smag, friske udseende og næringsindhold i længere tid.

Quick Cool / Quick Freeze

Funktionerne til hurtig nedfrysning og nedkøling gør det muligt hurtigt at øge og gendanne temperaturniveauet i fryseren og køleskabet efter at have anbragt store mængder af friske fødevarer indeni.

Holiday Mode

For at reducere energiforbruget, når du er på ferie, kan du sætte køledelen i ferietilstand. Så fortsætter fryseren med at fungere som normalt, imens køledelen lader temperaturen stige til omkring 15 grader (dette varierer fra model til model). Dette er velegnet, når køledelen er tømt for temperaturfølsomt indhold, imens du er på ferie.

GENERAL

| | |
|-----------------------------------|----------------------------|
| Type | Free-Standing |
| Total Volum | 565 liters |
| Capacity Fridge | 369 liters |
| Capacity Freezer | 196 liters |

| Wine Rack Type | No |

PERFORMANCE AND TECHNICAL INFORMATION

| | |
|--------------------------------|--------------------|
| Energy Efficiency Class | E |
| Noiselevel | 37 dBA |
| Noiselevel Class | C |
| Climat Class | SN-T |
| Dimensions (HxWxD) | 182 x 90.8 x 75 cm |
| Plug Type | European |
| Cable Lenght | 1.95 m |
| Daily Freezing Capacity | 4.6 kilograms |
| Energy Consumption (kWh/annum) | 336.32 |
| Refrigerant | R600a |
| Refrigerant Charge (kg) | 0.062 |

- Place the product on a flat surface to avoid vibration.
- Place the product at least 30 cm away from the heater, stove and similar sources of heat and at least 5 cm away from electric ovens.
- Do not expose the product to direct sunlight or keep it in damp environments.
- Your product requires adequate air circulation to function efficiently. If the product will be placed in an alcove, remember to leave at least 5 cm clearance between the product and the ceiling, rear wall and the side walls. at least 5 cm
- Check if the rear wall clearance protection component is present at its location (if provided with the product).
- If the component is not available, or if it is lost or fallen, position the product so that at least 5 cm clearance shall be left between the rear surface of the product and the wall of the room. The clearance at the rear is important for efficient operation of the product.
- When placing two coolers in adjacent position, leave at least 4 cm distance between the two units.
- Do not use extension or multi sockets in power connection.
- Do not install the product in places where the temperature falls below -5°C .
